DETAILED ACTION

Response to Amendment and Remarks

Applicant has filed an amendment and remarks (including new claims) entered into the application on 14 May 1999 after reviving an abandoned patent due to Patent and Trademark Office error. Applicant has complied with the previous objections and rejections via their amendments. Given the new invention claimed (i.e., the new claims) a final rejection has been issued as follows.

Claim Rejections - 35 U.S.C. § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

2. Claims 31-53 are rejected under 35 U.S.C. § 102(b) as being fully anticipated by Lee (U.S. Patent 5,721,675). Lee shows, a voltage reducing and current limiting rectifying circuit arranged to be connected to an AC power source (100), including a current rectifier (500), a capacitor (310) parallel connected to a resistor (320) between said AC power source and said current rectifier.

Allowable Subject Matter

3. No claims are allowable over the prior art of record.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Hishiki et al. (U.S. Patent 4,635,176) shows a dc generator (pay particular attention to figure 4, and 11-13 and their corresponding disclosure).

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
